

Are you ready to outsource one or more of your financial aid services but not looking forward to the RFP process? **We have a solution – cooperative buying.**

Your state allows for cooperative buying also known as piggybacking on another valid contract. Contracts that have been competitively bid by another public higher education institution (in-state or out-of-state) can in some instances be utilized by another college or university assuming the secondary institution follows the same terms as the original contract.

Consider the Advantages

- **Competitive pricing.** Since the contract has already been competitively bid, you leverage the negotiating power of the original contract, which may be for a larger institution and more competitively priced than you are able to secure on your own.
- **Eliminate the hassle of an RFP.** RFPs take precious time and resources. You and others at your institution could spend hours writing the RFP document, holding vendor meetings, reviewing responses, negotiating contract and pricing terms, and selecting the right vendor.
- **Quicker startup.** Leveraging an existing contract saves time and allows you to implement the products and services much quicker than going through an entire RFP and contracting process.

We are here to help connect you with higher education institutions that have already competitively bid our services to take the worry out of the competitive bidding process for you because it has already been done. Taking advantage of this opportunity allows you to quickly implement our services and stay focused on what is important – your students and helping them succeed!
